### ***Quality Excellence Award***

**Fairhaven, MA, July 2, 2015**

Nye Lubricants, Inc. is proud to announce our recent achievement in winning **Webasto's 2014 Quality Excellence Award**. Our dedication to being a superior supplier contributes to Webasto's success of achieving exceptional quality performance, and has helped to establish our valued customer as an industry leader for convertible roof systems.

We supply lubricants, such as Instrument Grease 794A and Uniflor™ 8172, to several sunroof manufacturers, including the Webasto Group, a supplier to the automotive industry for more than 75 years. John Evans, Nye's Director of Business Development in North America said, "We are pleased to be recognized by the Webasto Group, and many other manufacturing leaders, as the standard for quality in our industry. This distinction by Webasto is a testament to the outstanding job that my associates at Nye perform on a daily basis." Nye Lubricants has been a part of Webasto's storied history, and looks forward to being a part of the company's future.

Nye Lubricants, Inc. is a privately held formulator and manufacturer of high-quality synthetic oils, greases, specialty fluids, and index-matching optical gels. Founded in 1844, Nye services customers in a broad range of industries including the top 25 global automotive parts suppliers, the world's largest aerospace and defense contractors, name-brand appliance and power tool companies, preeminent medical device manufacturers, and several leading in-vacuum equipment producers. With 170 employees and 28 International Channel Partners on six continents, Nye is in business to redefine superior product performance, leveraging its technology, engineering expertise, and core competencies in synthetic lubricants to its customers' enduring benefit.
